## OBJECTIVE

Software Engineer with 4+ years of experience in delivering end-to-end products, thriving in collaborative teams to drive impactful solutions to complex problems

## EXPERIENCE

### Software Engineer 2

Medikabazaar

November 2023 - Present

Gurugram, Haryana, India

- Led and built **multi-tenants Django**, **NextJS** app using **django-tenants**, **PostgreSQL**, **Redux**, **TypeScript**.
- Led and implemented infra wide **API Gateway** and **Private Application Load Balancers** on **AWS**.
- Set up **CI/CD pipelines** for all microservices using **Jenkins**, streamlining deployments, making them **10x** faster.
- Led and implemented **Multi Broker Kafka Cluster** on **AWS**, for infra wide async messaging.
- Led and built **Notification Service** using **Spring Boot (Java)**, **Redis**, **AWS SNS**, **SES**, **SMTP**, **Kafka**, **ReactJS**, supporting both async and sync messaging with rate-limiting per microservice.
- Developed and trained **time series forecasting** models using **LSTM** on **AWS Sagemaker**.

### Software Engineer 2

Fashinza

April 2022 - November 2023

Gurugram, Haryana, India

- Led and architected finance **microservice**, following **SOLID principles** and **design patterns** leading to independent deployments and **3x** faster product delivery, using **Django**, **Docker**, **RabbitMQ**, **Celery**.
- Introduced **custom django serializers**, resulting in **93%** faster API response time and **86%** fewer DB queries.
- Led and built finance dashboard using **ReactJS**, **Redux**, **Kanban cards**, **Virtualized List**, **framer-motion**.
- Introduced **Black formatter** and **Unit Tests** with **django-test** and **coverage.py**, integrating them into the **GitHub Actions** workflow as a prerequisite for PR approval, reducing the number of bugs reported by **60%**.

### Software Engineer

Fashinza

June 2020 - April 2022

Gurugram, Haryana, India

- As a founding engineer, built end to end products from scratch, handling CRUD of more than **1L** SKUs, using **ReactJS**, **Redux**, **NextJS**, **TypeScript**, **Django**, **Python**.
- Implemented frontend **linting rules** and introduced **styled-components**, refactored **class-based** ReactJS code to **custom hooks** and **TypeScript**-based code, leading to a significant reduction in code size.

### Fullstack Developer Intern

Konfinity

May 2019 - June 2020

Noida, Uttar Pradesh, India

- Developed multiple full-stack web-apps using **ExpressJS**, **MongoDB**, **Vanilla JS**, **Bootstrap**, **MochaJS**

## SKILLS

### Languages

Python, TypeScript/JavaScript, Java, HTML/CSS

### Technical Skills

Django, Celery, ReactJS, Redux, NextJS, NodeJS, Spring boot

### Databases

PostgreSQL, MongoDB, Firebase

### Tools and Services

Kafka, Jenkins, AWS, Docker, Git/Github, Mixpanel

## EDUCATION

**Integrated Masters (B.Tech and M.Tech)**, Gautam Buddha University

2015 - 2020

Computer Science and Software Engineering (CGPA: **8.19**)
